

As always, we welcome your comments and suggestions for next year's book and CD. Again, we have a long list of contributors and we wish to extend our special thanks to the many individuals who provided direct input to the 2026 edition of the broadcast database. The full list will be published on our website!

GER	Michael Bethge (WWDXC)	ITA	Alfredo Gallerati IK7JGI (ARI)
GER	Wolfgang Büschel DF5SX	ITA	Bruno Pecolatto (AIR)
GER	Jens Hofstadt (R Joystick)	SWI	Rolf Hänggi (SHOC)
GER	Bernd Seiser (RTI Hörerklub)	USA	Ken Reitz KS4ZR
GER	Horst Weise DL4SBK		(The Spectrum Monitor)

plus many unnamed contributors worldwide via Wolfgang Büschel DF5SX

4.2 Digital Radio Mondiale (DRM)

Says Ken Reitz KS4ZR in *The Spectrum Monitor*, United States of America - December 2023: "The DRM Consortium has for many years mentioned that an inexpensive DRM portable - a sort of tablet-radio - was on the drawing boards and often displays a prototype that is used for demonstration purposes whenever the Consortium is trying to make inroads in another country to introduce DRM, but so far, such a product is not available for purchase. - There have been few manufacturers willing to produce DRM receivers for the home and only in India are vehicle radios equipped for DRM reception. - After 20 years of laboring in the vineyards of digital broadcasting, DRM has not much to show." And that was that!

It's ages since more than 70 broadcasters had already begun transmitting live, daily or weekly DRM broadcasts and special programs. Today, however ... **most of these have gone**: the total time of DRM transmissions is strongly **d**ecreasing, and a mere 10 (ten!) stations are left. Forrrrrgeddded!

This is the very latest DRM transmission schedule, sorted in start time order for your convenience.
